LONG-TERM CARE

We are committed to creating a long-term care experience that is more than meeting a resident's daily needs. We strive to create a warm, loving environment where every resident feels at home.

Along with our 24/7 nursing care, we give equal attention to our residents' emotional and mental health. Compassionate social workers on staff to offer guidance and a listening ear, and our activities department schedules engaging activities daily.

MEMORY CARE

Our memory care program offers a secure and familiar environment for residents living with Alzheimer's or other forms of dementia.

Each day is well-structured with predictable activities and a consistent schedule. Every staff member that works on our memory care unit is highly trained in dementia and memory disorders.

Nutrition is the key to healthy living.

Our staff of chefs and nutritionists consistently turn out dishes that are healthful and tasty, and they are happy to make any adaptations or accommodations based on medical needs or preferences.
